# LIFT-OUT FLOOD BARRIER

## FLOOD PROTECTION THE MOMENT YOU NEED IT

The Lift-Out Flood Barrier provides economical flood protection when you need it most. It can be easily installed quickly and then removed and stored away when flood risk is low. This product is perfect for walk doors, sectional doors, retaining walls, driveways, storefronts, interior hallways/rooms and basement-level windows.

### ENGINEERED FOR LASTING PROTECTION

- Available in mild steel, stainless steel and aluminum construction
- Manual latch system designed for simple, quick deployment
- Compression sealed (requires no compressed air for activation)

### CONVENIENT AND SAFE

- Flush sill design (no trip hazard at opening)
- Custom designed to meet your opening requirements
- Quick and easy deployment during flood risk
